

## 10. Future Scope

**Integration with UPI & Payment Gateways:** Adding Indian payment methods like UPI, Paytm, and debit/credit card integration for rent payments and deposits.

**Aadhaar & PAN Verification:** Introducing identity verification for tenants and landlords to ensure trust and authenticity.

**Regional Language Support:** Expanding the platform to include major Indian languages like Hindi, Tamil, Telugu, Bengali, and Marathi to reach a broader audience.

**Mobile App Development:** Building dedicated Android and iOS apps, considering India's mobile-first internet user base.

**Partnership with Local Agents:** Collaborating with verified local property brokers and agents for better property availability.

**Rent Agreement Generation:** Offering automated rent agreement generation as per Indian tenancy laws.

**Push Notifications & Alerts:** For rent due dates, property availability, and promotions, especially useful for frequent mobile users.

**AI-Based Property Recommendations:** Personalizing property suggestions based on user preferences and browsing history.
